## PLATELET-RICH PLASMA (PRP) THE NEW ROLE IN BIOLOGICAL DERMAL REJUVENATION

Platelet Rich Plasma also known as 'Facial Stem Cell Regeneration' or simply 'Plasma Therapy' was introduced to Australia over 6 years ago. Plasma is the part of our blood that is rich in platelets. Platelets release 'growth factor' which stimulates stem cells to repair and produce new healthy tissue. Platelet rich plasma is obtained by separating it from your blood with a centrifuge. Designed for all over rejuvenation of aging, including wrinkles, scarring, volume loss and skin rejuvenation. Plasma therapy is responsible for:

- Tissue regeneration and rejuvenation
- Increasing collagen production
- Recruiting other cells to the site of treatment

### Treatment Areas

- Around the eyes
- Cheeks and Mid face
- Neck rejuvenation
- Jaw Line
- Chest and décolletage rejuvenation
- Mild to moderate acne scarring
- Stretchmark improvement
- Back of hands

**Platelet rich plasma can be used in multiple areas for dermal rejuvenation.**

<b>Single Treatment</b> (1 Tube)	<b>\$390</b>
<b>Multiple Treatments</b> (3 Tubes)	<b>\$990</b>

### PRP & Skin Inject Combination

For accelerated skin rejuvenation, PRP and Skin Inject can be combined to treat the following conditions:

- Pigmentation
- Stretch Marks
- Scar Tissue
- Fine Lines
- Acne Scars
- Enlarged pores

**PRP / Skin Inject Combination:** **\$600**  
*Includes 1 x PRP Tube = 1 x Medical Skin Inject Roller*

## SKIN-INJECT™ SKIN NEEDLING TREATMENT

Dermal Rolling is a results orientated technology. It is derived from ancient acupuncture techniques. The procedure uses a roller with microscopic needles that are rolled over the skin.

Tiny punctures are created within the epidermis and dermis that encourage the skin's own natural healing response. This cutting edge technology is used to treat the following conditions:

- Pigmentation
- Fine Lines
- Stretch Marks
- Acne Scars
- Enlarged Pores
- Scar Tissue

### Purple Peel

45 min **\$345**

This intensive skin peel is designed to accelerate skin regeneration and provide a full skin resurfacing for severely pigmented and aged skin.

A primary benefit of this peel is the reduction of Melasma and Chloasma:- age spots, freckles, and dark patches caused by birth control medications, pregnancy or other hormonal changes.

This medical grade peel targets the visible signs of ageing and sun damage, resulting in a new, fresh, lighter and brighter, more beautiful radiant skin.

This treatment requires full skin preparation. You will need to be using the Skinitut peel preparation skincare regime for 3 - 4 weeks prior to treatment. (Skinitut peel preparation packs are available for \$119)

*Before Treatment*

*During Treatment*

*After Treatment*

*We provide a complimentary makeup retouch after every treatment!*

## MEDICAL GRADE LASER

### Hair Removal

We only use the latest laser technology with the Candela GentleLASE Laser system. Medical grade laser treatment is safe and does not harm or alter surrounding skin or tissue. These lasers apply precisely controlled pulses of energy which reach the hair follicles and disable their ability to grow.

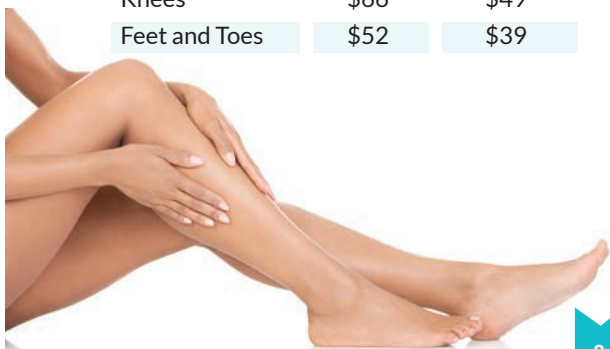

Treatments will be conducted by our experienced and certified technicians and over a series of treatments you will see permanent hair reduction. These treatments are generally permanent, with an average reduction in hair growth of 70% – 95%.

## PIGMENTATION REMOVAL

Pigmentation is skin discolouration that appears as blotchy, brownish marks on the face and body. A consultation can help you identify your specific type of lesion and discuss the removal success rate associated with it. The good news is that more than half of all common pigmented areas are removed with just one treatment. Some require additional treatments – it can depend on your skin type.

*Other areas can be treated. Book in for a free consultation and treatment plan.*
